# Arts and Science Prerequisites

Prerequisites are specific courses or subjects that must be completed before a student can proceed to take other courses at the next level. Some university-level courses require high school (secondary) level prerequisites. The following chart indicates which subjects are needed to fulfill program requirements for major, minor and certificate programs in the College of Arts and Science.

Note: While these courses can be included in an admission average calculation, where appropriate, they are not prerequisites for admission to the College of Arts and Science.

<table>

</table>

*Students who studied Foundations of Mathematics in high school but who require Pre-Calculus Mathematics to complete their degree requirements can study MATH 102.3 or 104.3 at USask to clear their Pre-Calculus Mathematics requirement.

*Students who require Computer Science but were not able to take CMPT 30 in high school may take CMPT 140.3 at USask to clear their requirement. Students also require one of BIO 30, CHÊM 30, or PHYS 30.
