In order to study some university-level courses, students are required to have completed certain high school classes. For example:

- To study university-level biology, chemistry or physics, the Grade 12 (senior-level) course of the same subject is required.
- To study university-level calculus, Grade 12 (senior-level) pre-calculus or a university-level pre-calculus class is required.

Alberta transcripts

After applying for admission, applicants should upload a copy of their transcript to the admission portal. After graduating, students must request a final, official transcript to be sent to USask electronically by the Alberta Ministry of Education. Final grades for all subjects are needed to ensure admission conditions are met. If not received by August 1, it may impact students' admission and ability to enroll.

When considering Alberta students for admission and scholarships, we will use either in-class marks OR diploma exam marks – whichever works to students' advantage!
