Calculating an admission average

An admission average is calculated using subjects and grades that appear on applicants' high school transcripts using this five-mark formula:

<p>ONE ENGLISH OR FRANÇAIS</p> <ul style="list-style-type: none"> English Studies 12 Français Langue Seconde-Immersion 12 English First People's 12 	My best English mark:

* Subjects that can only be used in an admission average calculation for specific colleges cannot be used for consideration for non-college-specific awards (e.g. Guaranteed Entrance Scholarships). Additionally, they are not considered to satisfy prerequisite requirements.

Note: Subject list may not be exhaustive. Additional courses may be eligible for use. If you have questions about a class not listed above, contact us at admissions@usask.ca.

In order to study some university-level courses, students are required to have completed certain high school classes. For example:

- To study university-level biology, chemistry or physics, the Grade 12 (senior-level) course of the same subject is required.
- To study university-level calculus, Grade 12 (senior-level) pre-calculus or a university-level pre-calculus class is required.

British Columbia transcripts

After applying for admission, applicants should upload a copy of their transcript to the admission portal. After graduating, they must request a final, official transcript to be sent to USask via postal mail by the BC Ministry of Education. (We are not able to accept official BC transcripts electronically.) Final grades for all subjects are needed to ensure admission conditions are met. If not received by August 1, it may impact students' admission and ability to enroll.

When considering BC students for admission and scholarships, we will use either in-class marks or diploma exam marks,—whichever work to students' advantage!
