In order to study some university-level courses, students are required to have completed certain high school classes. For example:

- To study university-level biology, chemistry or physics, the Grade 12 (senior-level) course of the same subject is required.
- To study university-level calculus, Grade 12 (senior-level) pre-calculus or a university-level pre-calculus class is required.

NT transcripts

After applying for admission, applicants should upload a copy of their transcript to the admission portal. After graduating, students must request a final, official transcript to be sent to USask directly by the Government of Northwest Territories, Education, Culture and Employment by completing the online form. Final grades for all subjects are needed to ensure admission conditions are met. If not received by August 1, it may impact students' admission and ability to enroll.
