

DISCOVER DENTAL THERAPY

- Do you want to improve your community's health and well-being?
- Do you enjoy interacting with and helping people?
- Are you looking for a challenging career as part of a professional health-care team?
- Do you enjoy working with your hands as well as your mind?

The Bachelor of Science in Dental Therapy is **Canada's only dental therapy program**, preparing students for a rewarding career as an oral health professional. Dental therapists can earn \$55/hour or more.*

You will receive a degree from the University of Saskatchewan following successful completing two years of continuous study. **Graduates will be ready to enter the workforce immediately.**

The direct-entry program accepts students from across Canada, with **Indigenous students receiving priority for admission.** Registered dental hygienists and internationally trained dentists with a degree from another country may apply for entry as a second-year student.

The BSc in Dental Therapy program is offered at education sites in La Ronge, Prince Albert, Regina, and Saskatoon.
