REASONS TO CHOOSE USASK

1. Academic reputation

USask’s academic programs and great faculty are recognized in official rankings, among other universities, by the communities we serve and beyond. Our culture of growth and deeper understanding encourages you to learn across traditional disciplines and develop fresh perspectives. Our students, faculty and alumni make a difference in communities and industries around the world.

2. Graduate employability

A degree from USask is a worthwhile investment in your future. The hands-on experiences and transferable skills you will earn throughout your studies at USask are well-known by top employers and lead our graduates to many career possibilities in Canada and around the world.

3. Inspiring, supportive environment

Established in 1907, USask’s main campus is well known for its impressive architecture and beautiful, spacious grounds. Whether historic halls, natural surroundings or innovative spaces are more your vibe, USask offers diverse environments for you to gain new perspectives and access a high level of support, something usually typical of a smaller university.

4. Research excellence

By choosing to study at a U15 university, you will have access to programs and facilities that provide the tools for a high level of interaction and research. No matter if you plan to pursue research as your career, or if research contributes to your learning in other areas, you will develop unique connections and crucial skills that will serve you well during and after your studies.

TUITION AND COST OF LIVING

The information below can help you estimate of how much money you may need to study at USask for your first year of undergraduate studies.

Tuition
Tuition at USask is used to provide high value academic programming, student supports and financial aid, helping us ensure students’ needs are met from the time you receive your offer of admission to beyond your graduation.

For most programs you can enter directly from high school, tuition is calculated by adding up the cost of individual classes you enroll in. Many programs offer a great deal of flexibility, allowing you to choose classes based on your interests, schedule and budget.

A minimum grade of 70% is required in each of these courses.

---

*International grades will be converted.*

### Admission average calculation

**High school students**

After you apply for admission and provide all the necessary documents, your admission average will be calculated using the subjects and grades that appear on your high school transcript using this five-mark formula:

- One English
- One math
- Three other approved subjects:
  - Maximum of two natural sciences
  - Maximum of two social sciences or humanities
  - Maximum of one fine or performing art

**Transfer students**

If you have already attended college or university, your average will be calculated using grades for your transferable university courses.

---

*College of Arts and Science*  *College of Agriculture and Bioresources*  *College of Education*
Applicants whose first language is not English must present proof of English language proficiency. If you have been asked to provide proof of your English proficiency, you will need to show you have met one of the following standards:

### COMMON TESTS AND QUALIFICATIONS

The English for Academic Purposes (EAP) program is designed to give you an academic advantage when you begin your university degree. This program is about more than learning English. It will prepare you linguistically, academically and culturally to succeed.

Levels and placement
The EAP program has four levels, each designed to build on your existing skills and teach new language. Each level can be completed in one 13-week term. Your placement will depend on your current English language test score.
