QUALITIES OF A NUTRITION STUDENT

- You enjoy helping people
- Interested in health care and science
- Good communication and teamwork
- Organizational and leadership skills
- Ability to analyze and problem solve

BE WHAT THE WORLD NEEDS
Nutrition is the study of nutrients that are essential for life. Dietetics is the profession that translates the science of nutrition into practice. Dietitians play a major role in health care, industry, government, research and education.

What is needed:

One year of university studies is needed before applying for admission to the Bachelor of Science in Nutrition program in the College of Pharmacy and Nutrition.

To practise dietetics, you need:

- Bachelor’s degree in nutrition
- Professional experience (practicum)
- Registration with a provincial regulatory body
- Successful completion of the Canadian Dietetic Registration Examination
